4/573 INTERIOR ARCHITECTURE
WORKING DRAWINGS
WILL BE TAUGHT
TUESDAY AND THURSDAY
FROM 6-7:50

[open to iarch and arch]
[the ensemble of instructors is being put together]

The COURSE will cover the elements that comprise a small set of construction documents and will inspire an appreciation of the composition and detail associated with these important documents. Learning CAD and applying it to your designs is required. The course is a companion with the Working Drawings 4/584 STUDIO which includes an adaptive-reuse of a small building in town and mixes the design with an attention to savvy detailing and sustainable thinking.

If you have questions about this course, please write Alison Snyder absny@uoregon.edu
