4/573 INTERIOR ARCHITECTURE WORKING DRAWINGS
WILL BE TAUGHT TUESDAY AND THURSDAY FROM 4-5:50 p.m.

[class is open to iarch and arch]

The COURSE will cover the elements that comprise a small set of construction documents and will inspire an appreciation of the composition and detail associated with these important documents. Learning AUTOCAD and applying it to your designs is required. The course is taught along with the Working Drawings 4/584 STUDIO which includes an adaptive-reuse of a small building space in town and mixes the design with an attention to savvy detailing and sustainable thinking.

If you have questions about this course, please write Alison Snyder absny@uoregon.edu
