architectural design II

new thermal baths

ARCH 284
6 credits

Studios meet 8 - 12 mwf

Studios will focus on the design of new thermal baths in one of 6 international cities. Emphasis will be placed on: designing with water, ritual, the senses, spatial organization, materials, response to place and culture, as well as the comprehensive design of a complex urban building.

Context studies and precedent studies will inform the design process. Students will learn to design in teams, and to work with real materials.

Instructors:
Gabriel Greiner, Melinda Nettles
Glenda Utsey, Daisy Williams
Leonard Yui, Virginia Cartwright (coordinator)
